

1. At what stage of the data lifecycle would you establish which third-party vendors in your supply chain will have access to the data you are collecting?

1 / 1 point

- ☐ Data Acquisition
- ☐ Data Storage
- ☐ Data Processing
- ☒ Data Sharing

✓ **Correct**

It is in the Data Sharing phase of the data lifecycle that you establish which third-party vendors will have access to your data, and how they will be held accountable to the same regulations you are liable for.
